

Short Pitch: A portfolio of some of my work to display to potential employers.

Long Pitch: A collection of works that I have created in different disciplines and areas of focus. This includes art, design, and game design. Another small goal is to create a website where you are able to quickly access all pages of the website from any page without overwhelming the user. There will also be an “about me” page that will list some achievements that may be attractive to some employers.

Persona 1 (Potential Employers): This is a persona of either member of a company team looking for a new member or a recruitment officers exploring potential new members.

Persona 2 (Potential Co-workers): This portfolio will also be a way for members of a potential team to get to know you so they are able to see who you are as a person and not just a coworker.

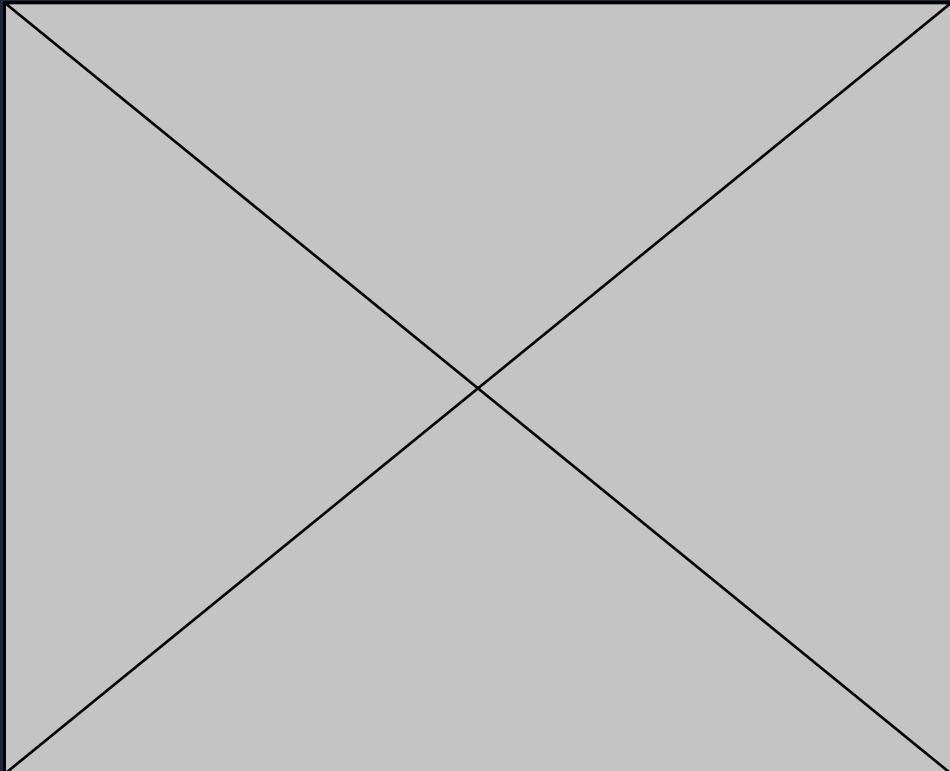

Comparative Website (<http://www.michaellevall.com/resume/>): A website that exemplifies this person’s achievements and experience in game design as well as writing.
